To remain at the forefront of an ever changing industry, updated equipment and technology at Vestige Truck and Car demands nothing but exceptional work from our teams. Meeting world class standards by delivering on our client expectations.

Preparation Bays, Assembly Bays and Aerocure Spray Booths are strategically placed within our workshops. Positively impacting on our workflow and improving delivery times.

Low noise air filtration systems coupled with energy saving compressors ensures the highest standard of work and reduced impact on the environment.

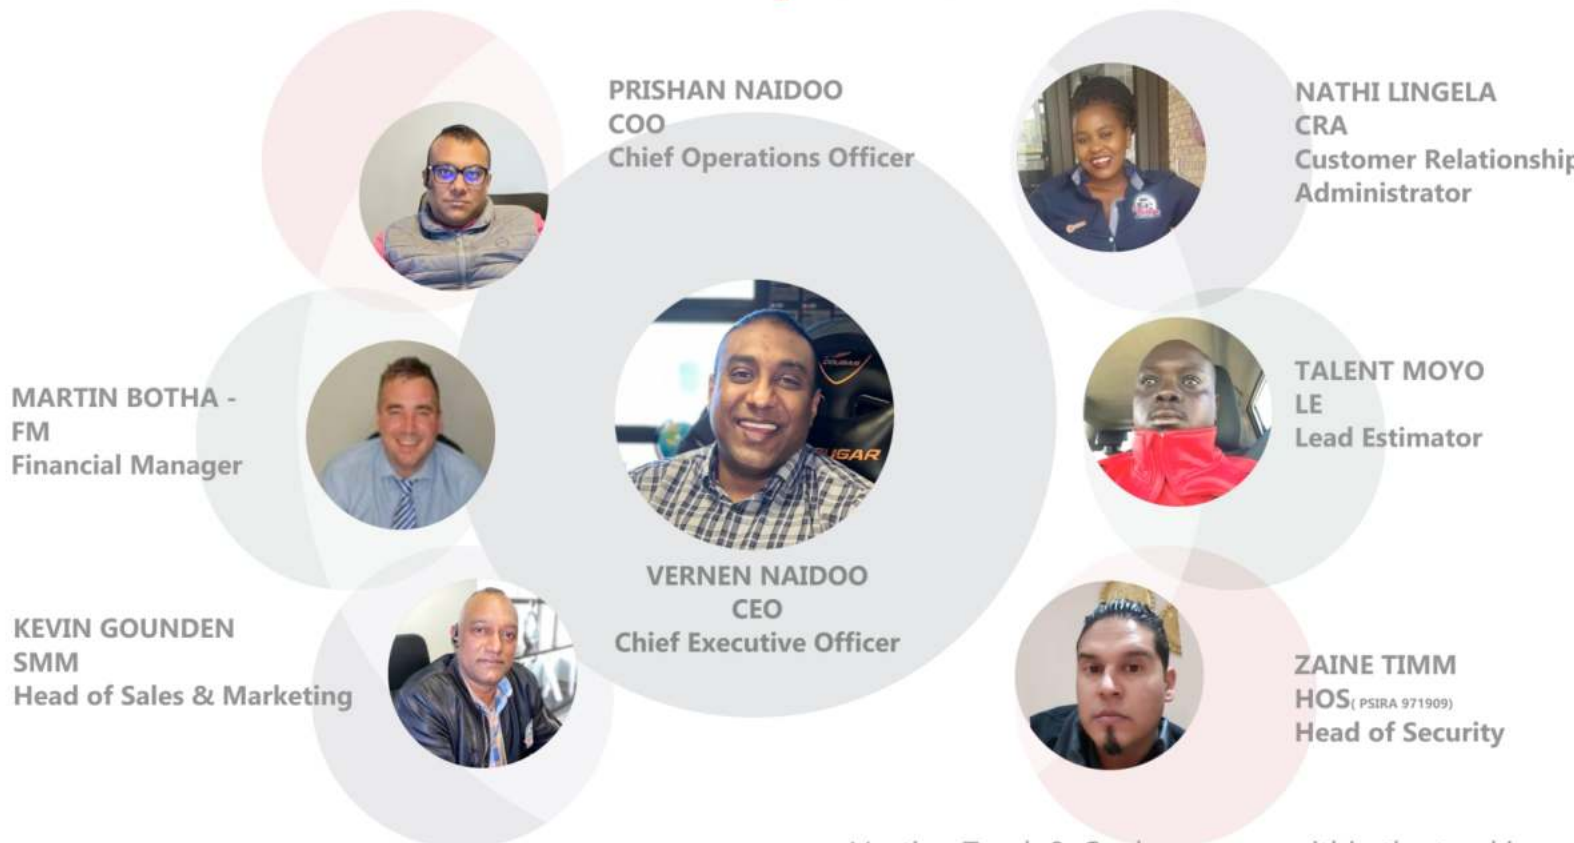

Investments into automated generators, ensure all work processes are never hindered, during power outages.

Emergency

SINCE 2013

Vestige Truck & Car

Our Industry Leaders

Vestige Truck & Car has grown within the trucking industry since year of inception 2013. Developing a much needed and highly competitive truck and car repair service provider.

Under the stewardship of Vernen Naidoo and Prishan Naidoo the Vestige Truck and Car company has created a strong brand and operational confidence across the trucking sector. This is seen in the facilities created to cater for the high demand in quality and customer care in the private and government sectors of truck and trailer repairs. The later inclusion of Kevin Gounden as MD, heading up Marketing and Sales, can be seen in our presence in the industry.

The passion for business is evident in the consistent presence and involvement of the founders in the day to day running of Vestige Truck and Car.

Creating valuable customer relationships through quality workmanship, values and integrity

Creating a brand and service orientated organisation that offers high quality and valuable customer relations in all parts of South Africa
